CITY COUNCIL AGENDA SUBMISSION
February 28, 2023

Agenda Item:

Authorization to continue participation in Missouri's Highway Safety Program and approval of a grant funding request through the Missouri Department of Transportation.

Description:

The grant funding request would include a total of \$8,000.00 in overtime officer pay for traffic enforcement, as well as grant funding to cover the cost of two (2) electronic radar speed signs, which would be deployed in different areas of the City at different times, with a particular focus in areas where excessive speed is an ongoing safety concern. The electronic radar speed signs would also collect traffic data which would assist the Department in determining where there is the greatest need for additional traffic enforcement by officers. The specific electronic radar speed sign requested is the Radarsign TC-400 due to cost efficiency, portability and data collection which would meet the Department's needs.

Recommended Action:

A Motion to Authorize the Participation in the Missouri Highway Safety Program and Approval of the Grant Funding Request from the Missouri Department of Transportation.

Attachments:

1. Grant application
2. TC-400 quote
3. TC-400 specification sheet
4. Competing bids for radar speed signs
5. City Council Authorization Form

Funding Request:

None

Submitted By:

Beth Andreski, Chief of Police

Department Head
