

City Council Report

March 24, 2020

Coronavirus Disease 2019 (Covid-19)

The best way to prevent illness is to avoid being exposed to this virus.

The virus is thought to spread mainly from person-to-person.

- Between people who are in close contact with one another (within about 6 feet).
- Through respiratory droplets produced when an infected person coughs or sneezes.

These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.

Please follow the Stay at Home Order.

The U.S. Small Business Administration approved Missouri's request for assistance through the federal agency's disaster loan program. This move makes low-interest disaster loans available to small businesses and private non-profits severely impacted by the Coronavirus (COVID-19). Find out if your business qualifies: <https://disasterloan.sba.gov/ela>
