## Going Green

Bates Utility has approximately 950 Inft of new main installed and will begin boring under the UP-railroad spur next week. A segment of future use main has been installed from Dielman Rock Island to Indian Meadows Park. The contractor was required to install this main during off peak park usage time as part of the new easement. Restoration of the channel and park grass is weather dependent.

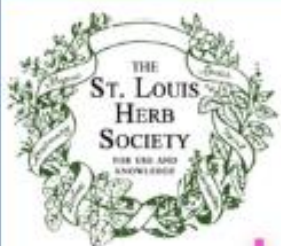

Missouri American Water has completed all main related work on Engel, Engelton, Cordell and Green Oaks. The Public Works department is planning asphalt replacement during the last two weeks of April or early May.
